Dear Shareholder,

Reedy Lagoon is seeking to raise \$1.32 million to fund exploration for gold at the Burracoppin Gold project in Western Australia, payment of annual filing fees in respect of Placer Claims & Lode Claims for the Clayton Valley and Alkali Lake North lithium projects in Nevada USA and provide working capital.

Details of the Offer are set out in this booklet. It is a non-renounceable pro rata rights offer made to eligible shareholders on a 1 for 3 basis at 0.7 cents per share together with a related offer under which Eligible Shareholders can apply for RLC shares in addition to their entitlement.

Please read this booklet before responding to this Offer. If you have any questions in respect of this Offer please call the RLC Offer Information Line on 1300 847 879 (within Australia) or +61 1300 847 879 (outside Australia) between 8.30am and 5.30pm (AEST) Monday to Friday or, alternatively, consult your stockbroker, accountant or other professional adviser.

The managing director and his related parties intend taking up 19 million shares being their entitlement under the Offer.

The Board sees significant growth potential in the Company's lithium, iron and gold projects. Directors have demonstrated this by their recent subscriptions for 9.3m RLC shares at 1.19 cents (\$110,583) in December 2022 and for 5,000,000 RLC shares at 4 cents (\$200,000) in June 2022.

Recent recoveries of anomalous gold at Burracoppin (refer ASX [release 3/07/2023](#)) and ongoing activities by third parties in the region of the Company's projects targeting both brine and sediment hosted lithium in Nevada (refer to June Quarter Activities report, ASX [release 26/07/2023](#)) are encouraging.

On behalf of the Board of RLC, I invite you to consider this investment opportunity and thank you for your ongoing support of the Company.

Yours sincerely

Jonathan Hamer

## OFFER DESCRIPTION

### Applications for Shares

RLC is seeking to raise \$1.32m by the issue of new fully paid ordinary shares in RLC ("**New Shares**").

New Shares are being offered to all Eligible Shareholders (as defined in Section 2 of "Important Information") under a rights issue and a related offer (together, the "**Offer**").

As an Eligible Shareholder, you can apply for any amount of New Shares, but:

- subject to the Limit on Allocation (see below), you are only guaranteed to be allocated your Entitlement (the number of New Shares equal to 1 New Share for every 3 RLC ordinary shares held at the Record Date, rounded up to the nearest whole number of New Shares); and
- all or some of the New Shares applied for above your Entitlement ("**Additional Shares**") may not be allocated to you where:
  - (a) there are insufficient New Shares available\*; and/or
  - (b) RLC in its absolute discretion applies an allocation policy or scaleback; and/or
  - (c) the Limit on Allocation applies to you.

\*Additional Shares will only be available to the extent other Eligible Shareholders do not take up their Entitlements in full. Accordingly, there is no assurance that Eligible Shareholders who apply for Additional Shares will be allocated all or any of those Additional Shares.

### Scaleback and Allocation Policy

If there are insufficient New Shares available to satisfy all applications for Additional Shares, RLC may apply a scaleback or other allocation policy. Generally, RLC will endeavour to allocate Additional Shares so as to give priority to those shareholders seeking to increase their holdings to achieve marketable holdings and to shareholders who have held their shares for the longest. Subject to the Limit on Allocation, the application of a scaleback or other allocation policy is at the absolute discretion of RLC.

(See also below under "Shortfall" for RLC's allocation policy if there is a Shortfall remaining after allocation of all New Shares applied for under the Offer).

### Non-Acceptance of Applications for Additional Shares

If an application for Additional Shares is not accepted, the surplus application payment (if greater than \$2.00) will be refunded, without interest, payable to the applicant, on or around 31 August 2023.

*Note: The Entitlement stated on your Acceptance Form may be in excess of your actual Entitlement where, for example, you are holding RLC shares on behalf of a U.S. Person as that term is defined in the U.S. Securities Act of 1933 (as amended).*

The Offer is only open to Eligible Shareholders and RLC reserves the right to reject any application that it believes comes from a person who is not an Eligible Shareholder.

### Non-renounceable

Entitlements are non-renounceable, and RLC shareholders who do not take up their Entitlements will not receive any payment or value for their Entitlements. Entitlements will not be able to be traded on the ASX or privately transferred. If you do not take up your Entitlement under the Offer, your percentage shareholding in RLC will be diluted.

**Not underwritten**

The Offer is not underwritten.

**No Minimum**

There is no minimum amount which must be raised before New Shares will be issued.

**Shortfall**

Any New Shares that are not applied for or are otherwise not allocated following the close of the Offer will be Shortfall. Directors reserve the right to issue the Shortfall at their discretion not later than 3 months after the close of the Offer and at an issue price not less than the price at which the New Shares were offered under the pro rata issue. RLC's allocation policy is generally to allocate the Shortfall so as to issue the maximum number of New Shares and raise the maximum amount of the funds sought to be raised under the Offer. The application of its allocation policy in relation to any person is at the absolute discretion of RLC. RLC is not obliged to offer the Shortfall to RLC shareholders.

**Limit on Allocation**

New Shares acquired under the Offer do not fall within the exception to the 20% limit under the takeovers provisions of the Corporations Act 2001 (item 10 of s. 611). RLC will decline to issue New Shares to a person to the extent that the issue would otherwise result in that person holding more than 20% of the voting power in RLC.

**PURPOSE OF FUND RAISING AND USE OF FUNDS**

Funds raised will be used for exploration at RLC's gold targets at its Burracoppin Gold project and to fund land holding costs (Placer Claims and Lode Claims) at its lithium projects in North America and provide working capital.

Planned activities and estimated expenditures are summarised below:

<b>Gold in Western Australia.</b>		
	<b>Burracoppin Gold, WA</b>	
	Soil sampling and gold assay	\$25,000
	Other assay – assay existing samples for lithium and gold path-finder elements	\$30,000
	Geophysical surveys (drone)	\$80,000
	Preparation for drilling including heritage surveys and land access	60,000
	Drilling	\$460,000
<b>Lithium in Nevada, U.S.</b>		
	Annual filing fees in respect of Placer Claims & Lode Claims for the Clayton Valley and Alkali Lake North projects	\$165,000
<b>Other expenditures</b>		
	Contingencies and working capital	\$500,000
<b>Total</b>		<b>\$1,320,000</b>

## **OFFER PRICE**

The Offer Price per New Share is 0.7 cents.  
The closing price on 25 July 2023 was 0.9 cents.

The Offer comprises 188,906,534 shares (representing 25% of the expanded capital) at 0.7 cents per share and will imply a market capitalisation of \$5.3 million in the event that the Offer is fully subscribed.

## **KEY RISKS**

### **Exploration**

At all RLC's prospects the potential quantity and grade of any mineralization is conceptual in nature, there has been insufficient exploration to define a Mineral Resource, and it is uncertain if further exploration will result in the determination of a Mineral Resource. Even if a Mineral Resource is identified it may not be possible to exploit that Mineral Resource economically.

### **Exploration and Mining Licences**

In Australia, the renewal of tenements upon expiry of their current term are subject to Ministerial approval. Tenements may not be renewed or fines may be levied if the minimum expenditure commitment for a tenement has not been met. Non-approval or delay in the approval process could have a negative impact on exploration conducted by RLC as well as the Company's share price. The Company's Australian tenements are in good standing.

In the USA on Federal lands, lode and placer claims are renewed each year on September 1<sup>st</sup> by paying the requisite fees. The Company's North American tenements (Placer Claims and Lode Claims) are in good standing.

### **Constraints on Exploration Activities**

There is a risk that the carrying out of any exploration programme may be delayed or prevented or the costs may be increased by factors such as:

- adverse weather conditions over a prolonged period;
  - unavailability of suitable equipment;
  - unavailability of suitable contractors;
  - unavailability of free ground for claim staking in new project areas being generated;
  - delay or failure to obtain consents or approvals necessary for the conduct of exploration and mining or failure or delay to satisfy the conditions of any such consents or approvals
- unanticipated operational and technical difficulties encountered in survey, sampling, drilling and production activities; or
- the proximity of endangered flora or fauna or aboriginal sites of significance or heritage sites.

### **Native Title and other forms of Land Tenure that overlay State or Crown ownership of Minerals**

Native Title Claims have the potential to cause significant delays to exploration in Australia. From a practical perspective, the key risks that arise in relation to native title are that:

- first, there may be considerable delays experienced in seeking and obtaining the agreement of registered native title claimants or holders (or an arbitral body, if this proves necessary) to the granting of an exploration or mining tenement, where this is required by the “future act” requirements of the Native Title Act;
- second, in some limited cases it is possible that agreement may not be reached with registered native title claimants or holders in relation to the granting of an exploration or mining tenement, or that an arbitral body may determine that an exploration or mining tenement should not be granted; and
- Third, the conditions to which such an agreement is subject may be onerous, particularly in relation to the payment of compensation or the management of places and items of Aboriginal cultural heritage significance.

The potential also exists for further Native Title Claims to be lodged over any existing or future tenement area.

There are no Indian Lands that affect the claims located in Nevada, USA.

### **Aboriginal Significant Sites and other forms of Cultural Heritage and Protected Sites**

The State of Nevada has legislation that obliges exploration and mining companies to identify and protect sites of cultural and heritage significance.

Australian Commonwealth and State Legislation oblige RLC to identify and protect sites of significance to Aboriginal custom and tradition.

From a practical perspective, the key risks that arise in relation to cultural heritage protection are that:

- there may be considerable delays experienced in obtaining the consent of representative bodies or administering authorities (where applicable) to carry out exploration activities on land that has cultural and or heritage significance, which delays could impact upon project timing;
- consent, if granted, may be granted subject to onerous conditions; and
- consent may not be obtained, and will not be able to be obtained if RLC’s activities would result in the destruction of an item of Aboriginal cultural heritage significance.

### **Share Market Risks**

Share market conditions may affect listed securities regardless of operating performance. Share market conditions are affected by many factors such as:

- general economic outlook;
- movements in, or outlook on, interest rates and inflation rates;
- currency fluctuations;
- commodity prices;
- changes in investor sentiment towards particular market sectors; and
- the demand for, and supply of, capital.

Investors should recognise that once the New Shares are listed on ASX, the price of the New Shares may fall as well as rise. Many factors will affect the price of the Shares including local and international stock markets, movements in interest rates, economic conditions and investor sentiment generally.

## **Government Risk**

Changes in laws and regulations, in particular laws and regulations concerning land rights, land use and environmental requirements may impact adversely on the Company's ability to explore and mine. Changes in government, and government policies can have a significant influence on the outlook for the Company and returns to investors.

## **Capital Requirements**

The amount to be raised is estimated to cover the costs of planned drilling, prospecting and contribute to general working capital. The Offer does not have a minimum amount to be raised.

Additional capital will be sought as required, particularly if results of exploration provide opportunity to conduct substantial drill programs and the Company determines sole funding would provide better returns for shareholders than funding such activity by farming-out project equity under joint venture terms should they be offered.
