## Important changes to Super Accelerator

### Changes to administration fees Super Accelerator Core

We are writing to you in relation to your Super Accelerator account with Netwealth and to let you know that on 1 October 2023 we will be issuing a new Super Accelerator Product Disclosure Statement ('PDS').

We regularly review the products and services we offer our members including their associated cost. Our aim is to ensure that the fee structure remains competitive and equitable amongst members. As a result of our latest review, from 1 October 2023 the 'Administration fee – account fee' for Super Accelerator Core accounts will be replaced with a new Administration fee – account fee.

As you currently hold a Super Accelerator Plus account with us, the change in fees described below will not impact your Super Accelerator Plus account and will only impact you if you open a Super Accelerator Core account in future.

#### Changes in fees for Super Accelerator Core

The Administration fee – account fee for Super Accelerator Core accounts will continue to be based on a percentage of the total account balance and, whilst we have reduced the percentage applicable per annum (from 0.35% to 0.15% p.a.), it will now apply to account balances up to \$750,000 (previously it applied to account balances up to \$250,000). In addition, a fixed amount (calculated daily at the rate of \$60 per calendar year) has been introduced and the minimum total account fee has increased from \$120 to \$225 per calendar year. The following table compares the current and new fee.
