BLACKROCK®

BlackRock has built its offerings around its clients' greatest needs: providing breadth of capabilities – and depth of knowledge – across active and passive strategies. This is combined with a singular focus on delivering strong, consistent performance and an ability to look across asset classes, geographies and investment strategies to find the right solutions.

UBS Global Asset Management draws on its 30-year heritage to provide a comprehensive range of investment styles and strategies to investors. They strive to deliver outcome-orientated investment solutions for their clients, underpinned by a team-based approach and disciplined risk management.

Russell Investments, a global asset manager, is one of only a few firms that offers actively managed multi-asset portfolios, using its core capabilities that extend across capital market insights, manager research, asset allocation, portfolio implementation and factor exposures.

The building blocks for your investment strategies

Each underlying investment manager offers a different investment strategy designed to meet differing investment needs.

Whether you are looking for a core or satellite strategy, index or active management strategy, we have you covered.

World-class professional investment managers

Each of the GSS funds is invested with Netwealth's chosen underlying investment managers, who are responsible for implementing their investment strategy.

By utilising professional investment managers we provide you peace of mind that your investments are with managers that have deep resources, experience and expertise.

Cost effective inside super or your SMSF

The GSS funds can be purchased as part of your super, SMSF or as a 'non-super' investment.

They are available in all of the Netwealth offerings – either in Netwealth's low-cost Accelerator Core offer or alternatively the investment-rich Accelerator Plus offer.
