# Your school's financial education solution

Having launched in term one of 2015, Banqer was originally inspired by the concept of classroom "funny money".

Banqer brought this idea online and in line with today's financial practices, giving students added confidence and understanding of how financial systems work in 'the real world'.

Banqer is a virtual, online banking system where students can learn about financial principles first hand in a safe and controlled environment. It also acts as a modern day classroom reward system, providing students with added motivation to achieve set goals or maintain a standard of behaviour. This isn't surprising as it was developed by a primary school teacher who has been incorporating financial education into his everyday class for over a decade - he knows exactly what works.

With the help of pre-prepared lesson plans via our teacher Resource Hub your students will explore financial concepts like saving, compound interest, taxation, insurance, mortgages as well as basic transactional skills.

Financial education shouldn't be a burden or a bore, and it doesn't have to be! Banqer offers a fast and effective way to introduce these important life skills into the daily running of your classroom programme.

Credit Reporting

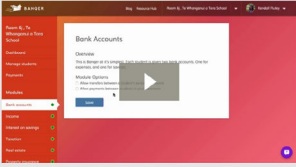

Superannuation

# Banqer at a glance

## Bank Accounts

### Overview

This is Banqer at it's simplest. Each student is given two bank accounts. One for expenses, and one for savings.  
[Click here for a handy resource to help get you started](#)

### Banqing on basics

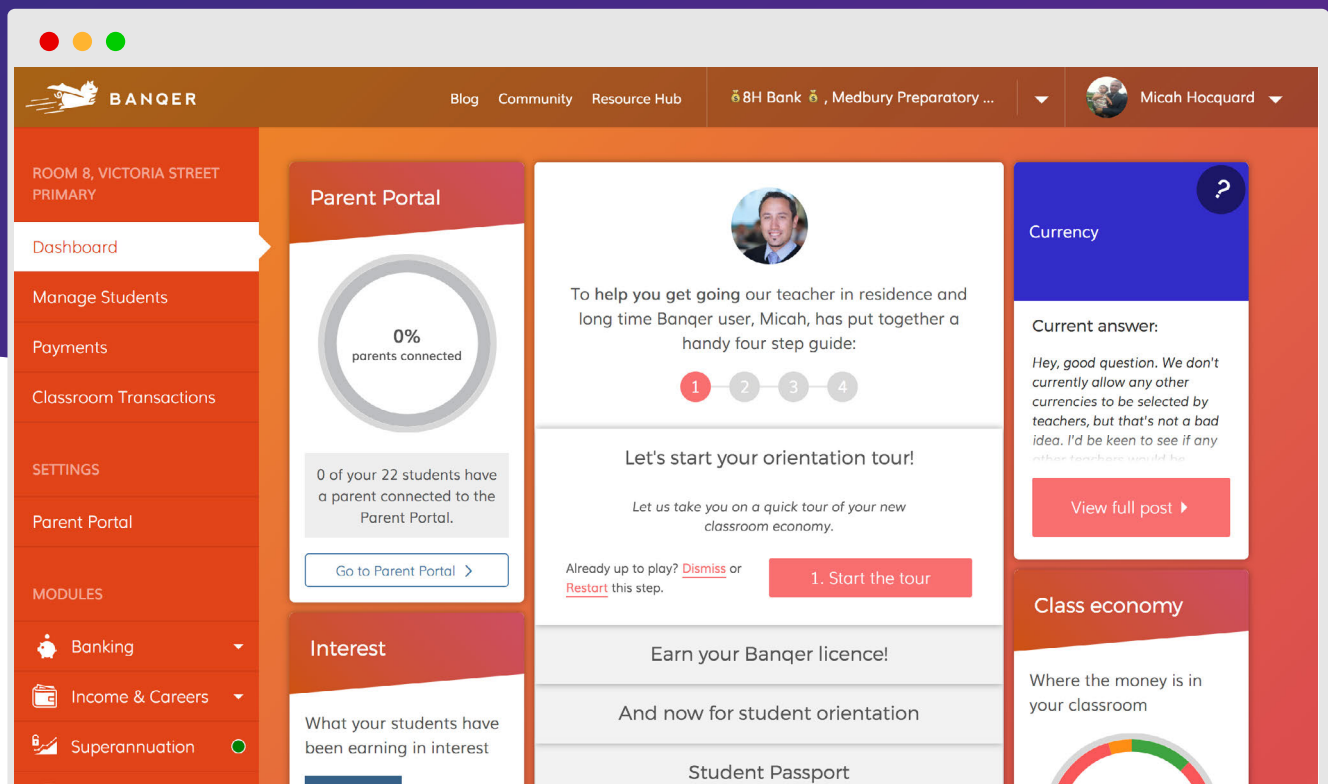

A quick overview of how you might use the Bank Accounts module in your classroom.

### Module Options

- Allow transfers between a student's personal accounts
- Allow students to make payments to all class members, including the teacher

[Save](#)

A teacher can easily sign their class up for Banqer. Within minutes students have two mock online bank accounts; Everyday and Savings.

The screenshot shows the Banqer dashboard for a teacher. The top navigation bar includes the Banqer logo, links for Blog, Community, and Resource Hub, and the user's name, Micah Hocquard. The left sidebar contains navigation options for the classroom (ROOM 8, VICTORIA STREET PRIMARY) and various modules like Banking, Income & Careers, and Superannuation. The main content area is divided into several sections: a Parent Portal showing 0% parents connected, a 'Let's start your orientation tour!' section with a '1. Start the tour' button, a 'Currency' section with a 'View full post' button, and a 'Class economy' section. The bottom of the dashboard features a 'Student Passport' section.

Some basic information is then set by the teacher and the economy is live. As the class progresses and the economy grows, the teacher can enable more modules when they're ready and introduce additional financial concepts.

## Teacher resource hub

The teacher resource hub is a great place to pull inspiration from when planning your lessons on financial literacy. All resources have been designed to fit within the Australian Curriculum.

The following projects have been assigned curriculum levels for your convenience, however please feel free to adapt any resource to match the curriculum level that you teach.

Filter projects by module: All, Banqer Bites, How to, Debt, Income, Careers, Interest, Superannuation, Companies, Real Estate, Tax, Insurance

Filter projects by level: All, 1, 2, 3, 4

Lesson plan	Levels	Topics Covered	Downloads
Banqing on Basics This simple resource looks at how you can establish Banqer within your classroom programme. It		set-up, how to	Banqing on Basics

Teachers access the Banqer Resource Hub which ties formal financial education into Banqer's daily use. When used in conjunction with Banqer modules, little to no prior knowledge is needed by the teacher to make a start today.

You have earned \$65.13 in interest

**Careers**

Enabled modules appear on students dashboards and they can start transacting with one another based on their classroom economy rules. They view the classroom leaderboard and are highly motivated by their new classroom currency.

ROOM 8, VICTORIA STREET  
PRIMARY

Blog 8H Bank Daniel Docket

Everyday / Recent transactions

Date	Reference	In	Out
1 Feb 2018	Wifi		\$25
31 Jan 2018	Power		\$70
31 Jan 2018	Classroom resources		\$110
31 Jan 2018	Wifi		\$25
31 Jan 2018	Tuition fees		\$150
31 Jan 2018	Chair rent		\$175
31 Jan 2018	Desk rent		\$195
30 Jan 2018	Weekly salary for 'Tech Ninja'	\$100	
26 Jan 2018	Savings		\$150
26 Jan 2018	Tax deduction - Jan, 19 to Jan, 26 2018		\$567.50
26 Jan 2018	Weekly income	\$1,500	
25 Jan 2018	Wifi		\$25

Students see money coming in and going out, gaining an understanding of what is happening behind each transaction.

Payments **Planned Payments**

What kind of payment would you like to make?

One off payment  Automatic payment (more than once)

To individual students  To groups

Choose an account to pay from

Expenses \$17,278.47 Savings \$233,447.19 Super \$2,157.34

Amount to pay:

Reference note: Payment for being late to class Amount: \$ 150

Students can make payments to each other and the teacher. One-off or weekly payments give students control and independence over their classroom currency.

# Financial education is more important than ever

Whose responsibility is it to teach our kids how to make sound financial decisions? Nowhere are these invaluable life lessons standardised... until now.

Banqer gives every student the knowledge necessary to embark into the financial world ahead. By bringing financial education into your classrooms you're ensuring a more financially secure future for your students, irrelevant of their family situation.

Many countries around the world are recognising the importance of financial education by bringing it into their national curriculum. Banqer works with the curriculum and ties the financial capability progressions into both the platform and all resources available for teachers to use.

“

*Having a bank account is associated with a higher score in financial literacy in many countries and economies. On average, students in the 13 participating OECD countries and economies who hold a bank account score 33 points higher than students who do not.*

# Simple learning

Clare Freene, Year 6 teacher, Mont Albert Primary School, Victoria

Banqer provides high quality, easy to follow resources for exploring financial literacy with students, and offers a new and unique take on the idea of a 'class money' system. Setting up is simple and promotes student voice straight away with the negotiation of class jobs and their monetary reward.

Take the stress and unknown away from teaching financial principles and give your students the gift of a sound financial education.
